Park System Master Plan
Update

Director of Parks and Recreation Glynn noted that the City Council authorized the hiring of a consultant to develop a comprehensive Park System Master Plan during the 2024 budget season. Following a thorough selection process, City staff and the Park and Recreation Commission chose LHB to lead this initiative.

Glynn further noted that the Park System Master Plan is a long-term strategic document intended to guide the City in the development, enhancement, and management of its park system. It will serve as a road map for future improvements, investments, and community engagement.

LHB consultant Jess Vetrano presented an update on the progress made to date on the Park System Master Plan, including:

- Documentation of existing park conditions
- Summary of public engagement activities conducted over the summer
- Draft recommendations for future planning and development

Mayor Sabas thanked LHB staff for the valuable insight into the planning process and for their help to ensure alignment with community needs and priorities. City Councilmembers and Park and Recreation Commissioners provided feedback on various components of the Plan. The next Community Survey is planned for early 2026.

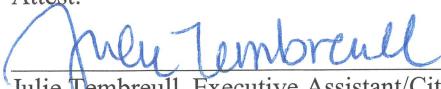

Adjournment

The Champlin City Council and Park and Recreation Commission adjourned the meeting at 7:33 p.m.

Ryan Sabas, Mayor
